- Courses Taken: Data Structures and Algorithms, Linear Algebra, Introduction to Machine Learning, Artificial Intelligence, Computer Networks

Experience

Liberty Mutual Insurance *Indianapolis, IN*

SOFTWARE ENGINEER INTERN *May. 2020 - Aug. 2020*

- Created wireframes using **Balsamiq** in order to create the best design that follows company standards and responds to current feedback about the applications
- Enhanced an internal form tracking web application with **TypeScript** and **Java** to process data into downloadable formats (.xlsx, .csv)
- Developed an internal Program Increment planner in **Angular** and **Spring Boot** for the purpose of efficiently and automatically planning out sprints

Kalkomey Enterprises, LLC *Farmers Branch, TX*

SOFTWARE ENGINEER INTERN *Summer 2018, Jan. 2019 - Dec. 2019*

- Collaborated on a mobile application using **React Native** for enthusiasts to find local dive shops
- Corrected multiple frontend applications to meet the goal of 100% WCAG compliance by using axe and Lighthouse
- Developed internal web applications using **Ruby on Rails** for States to provide hunting and recreational boating licenses
- Implemented a mobile application in **React Native** used by Nevada citizens to find game fish and bodies of water
- Designed a backend API through **Ruby on Rails** for the game fish mobile application to receive fish location data
- Built a frontend application in **React** for admins to alter the game fish API

Skills

Back-end	Flask, Ruby on Rails, Sinatra, Sprint Boot
Front-end	Angular, CSS, HTML, JavaScript, TypeScript, React, React Native
Programming	Java, Python, R, Ruby, SQL
Tools	Git, Linux

Projects

bruh *Bash*

SHELL SCRIPT *github://bruh*

- Type "bruh" into the terminal whenever git states that there isn't an upstream branch. Will set one up as well as pushing to it
- Saves approximately 193 minutes a year

Github Stars *Ruby, Sinatra, ERB*

WEB APPLICATION *github://Github-Stars*

- Uses the github_api gem to display every repository a user has starred on one page
- Takes 80% less time when compared to clicking "Next" through their stars

language_colors *Ruby*

RUBY GEM *github://language_colors*

- Ruby gem that returns Github's choice of color of a language
- Over 300 downloads according to RubyGems
